

Manufacturer of Industrial
Clutches and Brakes.

Who We Are

For 20 plus years WPT Power has been a leading global manufacturer of mechanical power transmission equipment. We make hydraulic and pneumatic products for heavy duty applications that operate efficiently and safely in more than 100 countries.

WPT Power Corporation is a privately owned engineering and manufacturing company that provides a wide range of products and services to the Energy, Agriculture, Dynamometer, Forestry, Marine, Metal Forming, Mining, Off-Highway, Paper/Converting and Steel industries worldwide.

Founded in 1992, WPT is set to exceed \$35 million in sales revenue during 2015. As an International manufacturing company, WPT operates a 29,000 sq.ft. facility in Wichita Falls, Texas and a 53,000 sq.ft. facility in Shanghai, China.

Who We Are

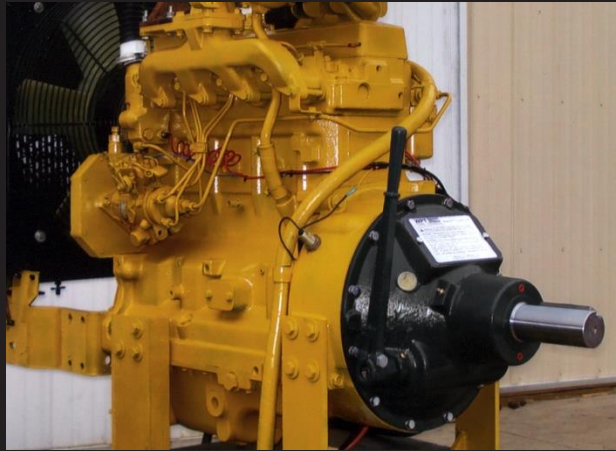

WPT has developed an extensive global network of knowledgeable, well trained and well-supplied distributors starting with our first one in 1993. WPT is committed to creating and maintaining lifelong customer relationships.

At WPT Power Corporation we engineer and manufacture pneumatic, hydraulic, spring set and mechanically actuated power take-offs, clutches, brakes, pump drives and winches used in heavy equipment applications.

Our Competitive Edge

WPT's sales team has high customer loyalty and retention because we support you through the product selection and installation process. Our team is committed to providing quality workmanship, service and a warranty that ensures your equipment performs for maximum uptime. Along with an impressive line of standard products, we offer custom units that are engineered to meet your individual applications.

WPT is proud that our Quality Management System conforms to ISO 9001-2008 as certified by DNV for both manufacturing facilities. This includes our engineering design, manufacturing, and machining of our clutch and brake product lines. In house testing facilities and other certifications such as ABS and ATEX assures you that you are getting the highest quality product.
