

# *Tested and ready for delivery!*

- *High-quality spherical roller bearings allow for maximum capacity and life*
- *Drop in replacement for Twin Disc or Rockford*
- *Straddle bearing holds up to 17" (430mm) diameter sheave*
- *Bearing housing remains on shaft during belt change to eliminate bearing contamination*
- *Bellhousing designed to accept mechanical, pneumatic or hydraulic actuated clutch*
- *No pilot bearing*
- *Male and female pilot diameters, simplify sheave housing mounting*
- *Lubrication passages are a fundamental part of the design, eliminating hoses*

***We look forward to  
hearing from you!***
